

Faster and tighter ties

Brushless motors

More power: 18V 4Ah slide-in battery

Improved performance

Optimised ergonomics

TJEP ULTRA GRIP

The ultra-strong solution!

Increase efficiency with TJEP ULTRA GRIP

TJEP ULTRA GRIP re-bar binder increases your efficiency significantly compared to the physically demanding, monotonous and time-consuming work of manual tying.

- The newly developed nose and handle design optimises access to the point you want to tie.
- The powerful 18V 4Ah Li-ion slide-in battery ensures long operating time.
- The brushless motors ensure faster and efficient tying, with only 0.6–0.8 s per tie—making you more efficient on the job.
- The tight and uniform tying ensures the work can be executed without interruptions.

In other words, the TJEP ULTRA GRIP series is your guarantee for the market's best overall budget when it comes to tying reinforcement rods or similar items.

TJEP ULTRA GRIP is the third generation of re-bar binders from TJEP and is a further development of our popular XP re-bar binders. The know-how gained from previous generations has been incorporated into the new ULTRA GRIP series, which sets new standards in tying speed and quality.

TJEP ULTRA GRIP

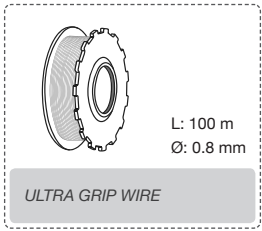

- Faster and tighter ties
- Optimised and robust design ensures easy access to the item and long life.
- Approx. 4000–5000 ties per charge.
- Supplied with two Li-ion batteries, charger and two coils of wire in a robust plastic case.
- Use TJEP ULTRA GRIP WIRE

STRONG AND TIGHT TIES

TJEP ULTRA GRIP 25 RE-BAR BINDER

- 1 18V brushless motors
- 2 Sealed gearbox for extra power
- 3 Optimised nose design with long lifetime, ensuring easier access to the point you want to tie
- 4 Longer and narrower handle for better ergonomics
- 5 18V 4Ah Li-ion slide-in battery
- 6 Connector for electronic extension

SPECIFICATIONS

Item no.	KC03309ULTG25
EAN no.	5702551240120
Dimensions (L x W x H)	281 x 109 x 300 mm
Weight	2.5 kg
Tie point thickness	8 - 25 mm
Tie speed	0.6 sek.
Ties per coil	160 - 225
Ties per charge	+5,000 (with 3 wraps)

ACCESSORIES

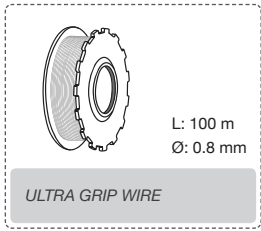

Description	Item no.
TJEP Battery 4.0Ah, 18V slide-in	KC03309BATTERY
TJEP charger	KC03309CHARGER
TJEP extension	KC03309EXTBAR
TJEP sheath	KC03309HOLSTER

APPLICATION

Securing reinforcement rods to prefabricated concrete elements, floors, walls, bridge elements, etc.
Securing underfloor heating pipes.

TJEP ULTRA GRIP 40 RE-BAR BINDER

- 1 18V brushless motors
- 2 Sealed gearbox for extra power
- 3 Optimised nose design with long lifetime, ensuring easier access to the point you want to tie
- 4 Longer and narrower handle for better ergonomics
- 5 18V 4Ah Li-ion slide-in battery
- 6 Connector for electronic extension

SPECIFICATIONS

Item no.	KC03309ULTG40
EAN no.	5702551240021
Dimensions (L x W x H)	297 x 109 x 300 mm
Weight	2.6 kg
Tie point thickness	12 - 40 mm
Tie speed	0.7 sek.
Ties per coil	120 - 160
Ties per charge	+4,500 (with 3 wraps)

ACCESSORIES

Description	Item no.
TJEP Battery 4.0Ah, 18V slide-in	KC03309BATTERY
TJEP charger	KC03309CHARGER
TJEP extension	KC03309EXTBAR
TJEP sheath	KC03309HOLSTER

APPLICATION

Securing reinforcement rods to prefabricated concrete elements, floors, walls, bridge elements, etc.
Securing underfloor heating pipes.

EAN no.	5702551240025

TJEP ULTRA GRIP WIRE

SUITABLE FOR

TJEP ULTRA GRIP 25/40/58, RE-BAR XP 25/40

ULTRA GRIP WIRE

Dimension	Item no.	Weight	Box/pallet
■ ULTRA GRIP WIRE, qty. 40	KC03309WIRE40	16.42 kg	48

The new TJEP ULTRA GRIP WIRE has high tensile strength and is very flexible and ductile – a specific combination that provides a perfect and efficient procedure, and a very strong tie. It ensures that reinforcement rods are tied tightly and securely.

TJEP ULTRA GRIP WIRE is galvanised to avoid rust deposits from the wire, which otherwise in the worst cases can affect re-bar binder functionality.

AUTHORISED TJEP SERVICE CENTRE

Our authorised TJEP service centre has extensive experience and expertise, having repaired and serviced many thousands of tools. This experience combined with continuous technical updating means that at all times you are ensured that your tools receive the best professional service. In other words, when your tool is returned, you can be completely certain that it is fully functional.

- ▶ Free estimate before repair (all types)*
- ▶ Fast and professional service with the industry's most experienced service team.
- ▶ Service history.
- ▶ Guarantee for 100% functionality.
- ▶ Repair/service of TJEP re-bar binders on an hourly basis (only original TJEP spare parts).
